Importing Clients & Invoices from ATX

Creating Reports in ATX to Export:

From ATX,

- a. Select Option menu
- b. Select Customize Fields. You should see a dialog similar to image below. (Note: You may want to take a screenshot or write-down your current options, so you can restore these settings later)

c. Select the following fields, which are also listed on the ATX Mapping in Mango.

ATX Export Fields	Required	
Company Name	Yes	
lient Number	No	
elephone	No	
-Mail	No The required	fields
lity	Yes must be in the	export
tate	Yes fields are opt	tional.
lip	Yes	
ddress	Yes	
mount Billed	No	
amount Paid	No	
Date Billed	No	
iirst Name	Yes	
ast Name	Yes	
iler DOB	No	
pouse First Name	No	
pouse Last Name	No	

- d. Mark all the returns with a check mark
- e. Unmark any returns you do not wish to import, including any duplicates that you do not wish to import into Mango.
- f. Ensure that no social security or ID numbers are duplicated or missing
- g. On the Reports menu, select Export Marked Client List. This will produce an Excel spreadsheet that can be imported into Mango.
